

SURVEY

GREEN AMBASSADORS

WATER

Use this survey to find out how your school could use water more sustainably. Find out the answers to each question and tick yes or no to record your answer. You may need some help from your teacher, the schools' caretaker or bursar to answer some of the questions.

TEAM NAME:

PUPIL NAME:

DATE:

- 1 How many leaking taps are there in the school?
- 2 Are leaking taps repaired quickly? YES  NO 
- 3 Does the school have any Low Volume Taps? These make sure that water comes out of the tap slowly. YES  NO 
- 4 Does the school have any timed operation taps? These only allow taps to be switched on for a short time so you can't forget to turn them off. YES  NO 
- 5 Are the school's toilets fitted with water savers? These are placed in the cistern to make sure they use less water. You should ask the caretaker to help you check. YES  NO 
- 6 Do the urinals flush automatically? YES  NO 
- 7 Does the school use water butts to collect rainwater? YES  NO 

8 Is rainwater collected for watering plants?

YES  NO 

9 Does the school record water usage?

YES  NO 

10 How much water has the school used this month?

.....

.....

.....

11 Is this more or less than the previous month?

.....

.....

.....

If you have any ideas for improvements you think your school could make, why not write them down here?
