WHY NATURE NEEDS YOU

© GLOBAL WARMING IMAGES / WWF

You may have noticed there's less wildlife than there used to be. That's because half of all UK species are in decline – we're losing our precious red squirrels, hedgehogs and birds at an alarming rate.

Nature has been there to offer us comfort during difficult times, and now it's our time to give back.

By stepping forward to take part in The Big Winter Wander and raise vital funds, you'll be helping us to protect forests, oceans and species around the world for everyone to enjoy, today and forever.

HOW YOUR MONEY COULD HELP

£50

could pay for a pinger to use on a fishing net to see if it reduces animals being caught in nets

£100

could pay a farmer to plant and protect 35 native trees on their land

£300

could pay to sow 6,000m² of a nectar-bearing, flowering plant mix to provide food for our essential pollinating insects
