

## HOW YOUR MONEY COULD HELP

When you take part in The Big Winter Wander and fundraise, you'll be helping us protect and restore our world, keeping it safe for future generations. Here are some examples you can share with everyone to encourage them to donate.

£30

could help buy the equipment needed to replant seagrass in UK coastal waters and restore marine habitats.

£50

could pay for a pinger to use on a fishing net to see if it reduces animals being caught in nets

£100

could pay a farmer to plant and protect 35 native trees on their land
