

HOW THE SUSTAINABLE FARMING SCHEME SHOULD WORK FOR PEOPLE, NATURE & CLIMATE

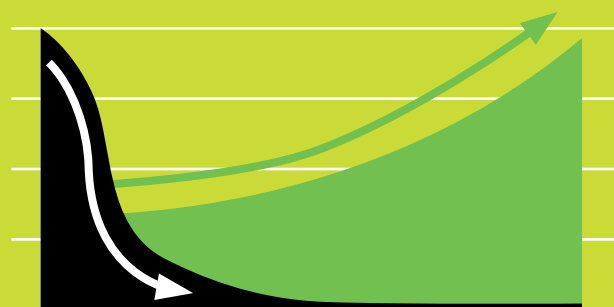

1. IMPROVE FOOD & FARMING SYSTEMS

2. SUPPORT NATURE FRIENDLY FARMING

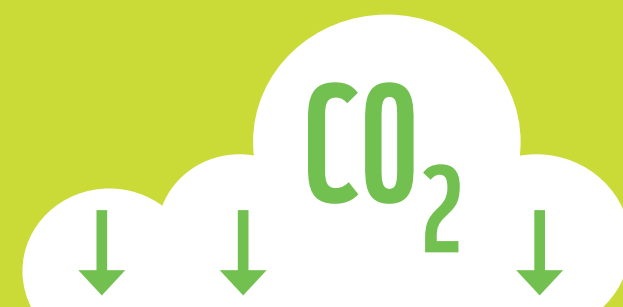

3. FAIRLY REWARD FARMERS WHO ALREADY DELIVER FOR CLIMATE & NATURE

4. PUT PEOPLE - FARMERS, FOOD PRODUCERS & CITIZENS - AT THE HEART OF SOLUTIONS

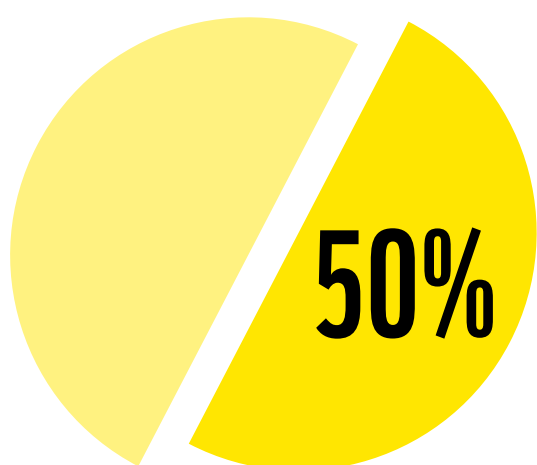

All tiers of the Sustainable Farming Scheme – universal, optional & collaborative, must be operating by April 2026 if we are to:

REVERSE THE LOSS OF NATURE BY 2030

ACHIEVE NET ZERO BY 2050

Welsh Government must allocate at least 50% of the budget to the optional & collaborative tiers, which contain most of the nature-friendly actions.
