

# HOW TO MAKE A DIY WILD DIY NATURE CROWN

Nature crowns made from twigs, leaves and flowers are a fun and easy way to get creative, spend time outdoors in nature and bring a little wildness inside.

They're a great alternative to a non-uniform Wear it Wild and can be done as a classroom activity. They can also help teach children the 3 R's - REUSE, REDUCE, RECYCLE!

## WHAT YOU'LL NEED:

- Durable cardboard - you could use an old cereal box
- Nature materials e.g. sticks, leaves, flowers etc.
- Scissors
- Glue

## HOW TO MAKE A CARDBOARD NATURE CROWN:

1. On the walk home from school, when you're out in nature or simply in your garden, gather up leaves, flowers, sticks and other natural elements.
2. Cut a piece of cardboard about 3" in width. Measure your child's head for the length and cut your cardboard strips accordingly.
3. Lay the cardboard flat and begin designing your crown. Take into consideration the items you are gluing.
4. Next, take your natural elements and glue them to your crown. If your kids are old enough, let them do this on their own..
5. When you are done designing your crown, glue the ends together.
6. Wear your crown with pride!
